

...seeing (and touching) is believing.

“Let them see, let them touch, let them buy!”

ADJUST-A-VIEW® is a new, innovative product concept. There is nothing in the market that directly compares to it.

When viewing the brochure or the web site, some people have difficulty visualizing how the system works. Others understand but will tell you, “Show me”.

Omega's elegant demo unit will solve your problems. People will immediately “get it”.

ADJUST-A-VIEW®
Moveable Arches by Omega
